

On June 3, Horizon Distributors opens the doors of our brand new workspace!

Horizon Distributors is excited to announce that we are moving into our new distribution centre on the last weekend of May. This new 150,000 sq. ft. facility, which includes 137,000 sq. ft. of warehouse space and a full cold chain with increased cooler and freezer space, doubles our present capacity and offers us the opportunity to expand our operations and continue our unprecedented growth. What does that mean for you and your customers? We will be bringing to market even more of the premium quality, organic, natural and gourmet foods and products that you expect from Horizon.

Here are all the details that you need to order or pick up from our new workspace:
